# Frequently asked questions

## ◆◆ What is Datapel PayNow generally used for?

PayNow is generally deployed to improve the efficiency of the accounts receivable process. As credit control and collections efficiency improves, businesses get paid faster and there is more cash available as working capital. PayNow streamlines a traditionally complex function and helps the accounts team to consolidate their tasks.

## ◆◆ What types of businesses use Datapel PayNow?

Cashflow-critical businesses use PayNow. Growing businesses that issue a high volume of invoices use PayNow. PayNow is popular in the following industries: manufacturing, wholesale distribution, construction, business services, and gifting. Small-to-medium businesses, including family businesses, choose PayNow to lighten the load on a busy accounts receivable team.

## ◆◆ How can I add Datapel PayNow to my current system?

Simply email us at [sales@datapel.com](mailto:sales@datapel.com) to start the application process. Once your application is submitted our team will assist you with the rest of the onboarding process.

## ◆◆ What are the costs involved in using Datapel PayNow?

Adding the Datapel PayNow module to your existing Cloud.WMS is absolutely free. Once you start using the PayNow payment portal, standard transaction fees will apply.

## ◆◆ What applications can I integrate with Datapel PayNow?

PayNow only integrates with Datapel Cloud.WMS. PayNow payments will automatically allocate details to your accounting software at the time of invoicing from Cloud.WMS.

If you are not an existing Datapel Cloud.WMS customer, please reach out to us via email at [sales@datapel.com](mailto:sales@datapel.com) or book a demo to find out more.

## ◆◆ How do I use Datapel PayNow?

PayNow will be available on your invoices in the form of a button and can also be placed in an email as a link. If you would like to learn more about how the PayNow module operates within Datapel Cloud.WMS, please visit our knowledge base for further information.
